MESSAGE

I am delighted to know that Messe Frankfurt Trade Fairs India is going to organize the 5th edition of its annual event on Indian Bulk Liquid Storage Summit which is the only such event catering to the tank storage industry in the country.

Our Government and Ministry is working towards endeavors of 'Reform, Perform and Transform' for the sector and it has been welcomed by the Industry peers in the sectors of Exploration and Production, Refinery, Marketing, Natural Gas and international cooperation.

The multiple ongoing projects are also focused on creating new employment opportunities for people in the country and ensuring socio-economic development, along-with being of strategic importance to the nation.

It came to my knowledge that the event is focused on 'Port-Led Development' and shall highlight how developments along with coastline can provide the much needed boost to the EXIM industries and the enablement of port-led development by the government and industry peers can provide the right support and boost to GDP of the country in coming years.

I wish all the luck to the organizers and looking forward to the outcomes from the summit which can be beneficial in deciding the policies which are needed to be implemented.

(Dharmendra Pradhan)
